

ALL YOU NEED TO KNOW ABOUT APIs

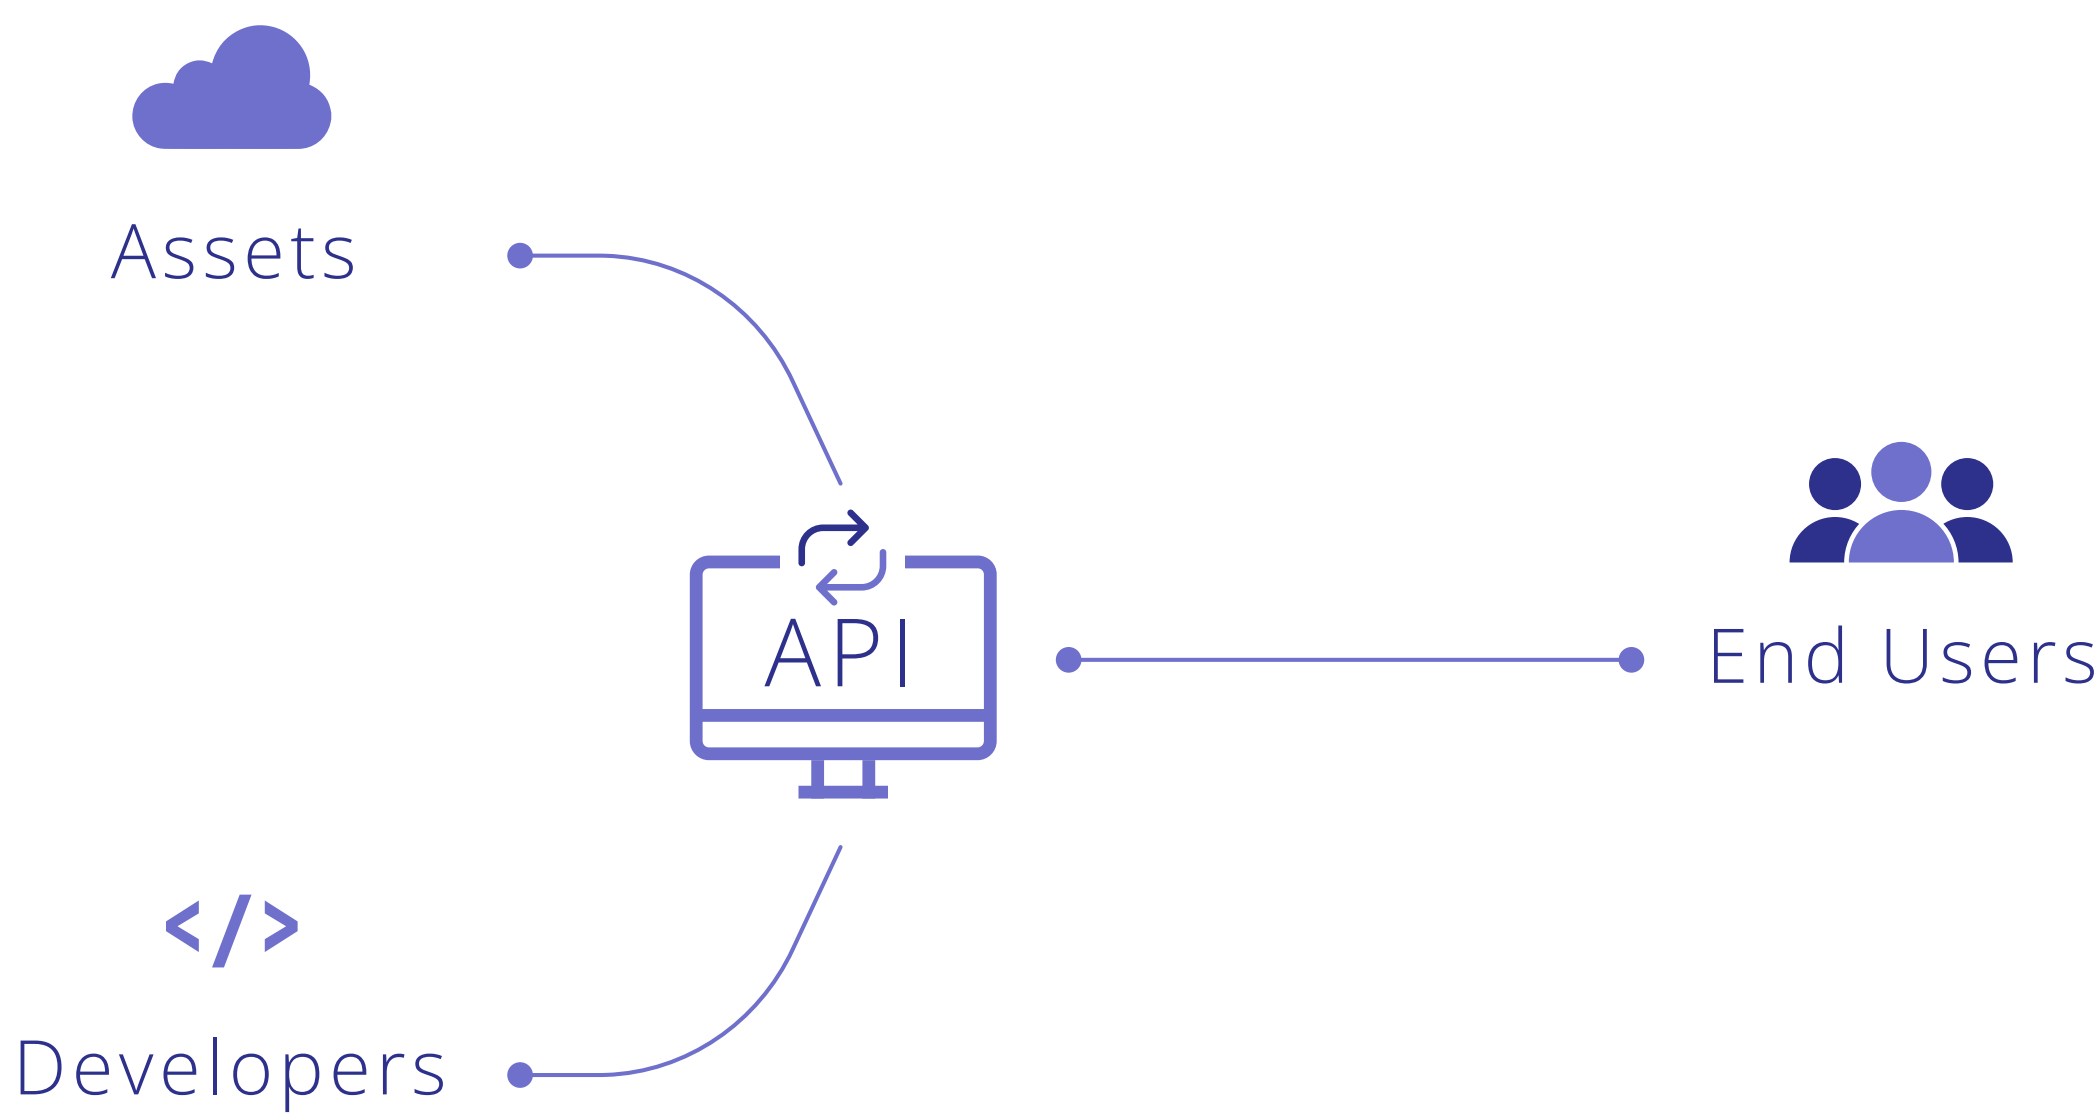

Application Programming Interface

WHAT IS AN API?

It's a software intermediary that allows two applications to talk to each other.

HOW IT WORKS

APIs BY THE NUMBERS

97%

of Enterprise leaders agree that customer experience is directly influenced by a successful API strategy

83%

of All Internet Traffic Belongs to API-Based Services

90%+

Of Developers Use API

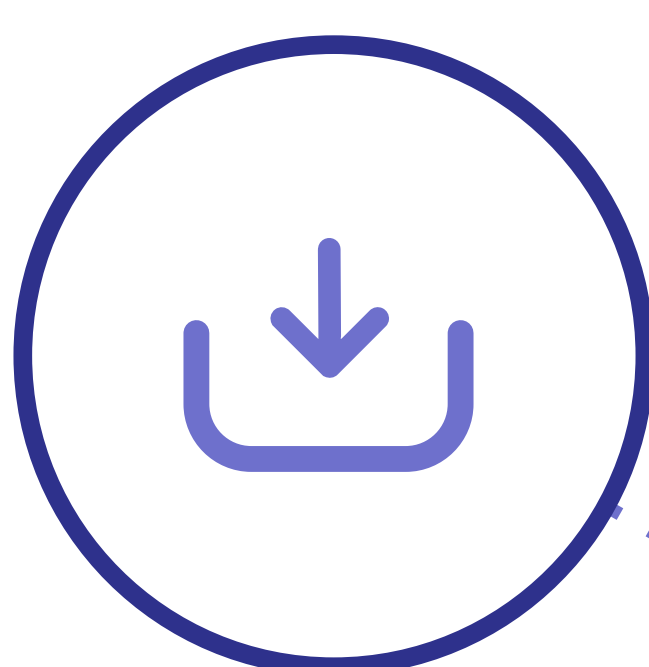

200M

public and private APIs in use

70%

of problems with APIs go undetected by conventional tools

BENEFITS OF USING APImetrics

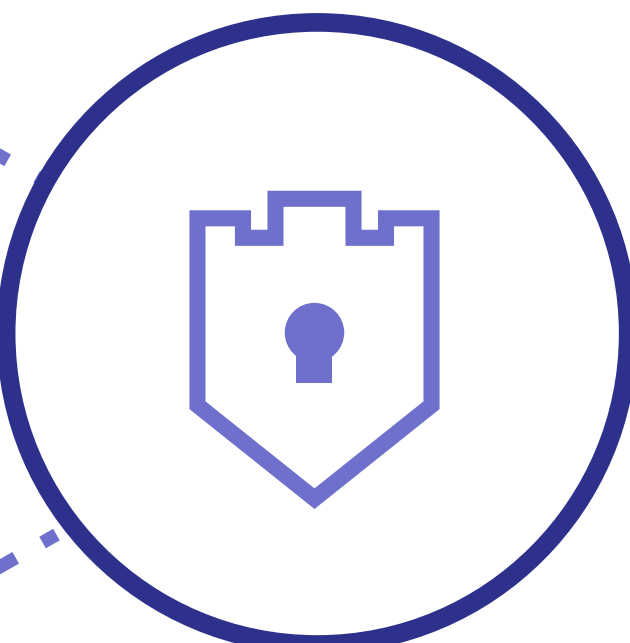

Importer

- ▶ Postman Newman runner
- ▶ OAI importer
- ▶ cURL importer

Security
